

Recycled Bottle to Rain Gauge

Supplies

- › Plastic bottle (2L is best but water bottles can be used if that's all you have)
- › Pebbles or gravel
- › Scissors
- › Tape (scotch and blue are both ideal)
- › Ruler
- › Water

Procedure:

This section will be updated after the presentation with Star. Until then, if you want to see what you'll be getting into, she sent me this link:

<https://cbs4indy.com/weather/stars-weather-school/stars-weather-school-for-april-29-the-water-cycle/>

After our workshop with Star, which should take an hour, this section will be updated and this workshop will be added to the Resource Library. You can access it here:

<https://insanitek.net/knowledge-conduit/library-of-resources/>

With the password "Knowledge" (with the capital K, no quote mark).
